Description

His sire is a bull that we bought from the Ole Farms in Alberta Canada. The Ole Pinebank 775H is a great addition to our program. His sire DDA Pinebank 50H was one of the better bulls ever used at the Ole Farms, the largest seed stock producer in Canada. The Ole Farms are a great customer of ours and they have much influence from our herd. The mother to 1A is also Pinebank bred. We bought Pinebank SE 10D from Bill Hodge a number of years ago. Bill knows cattle as well as anyone I know. This pedigree also traces to OCC Great Plains, one of the all-time great cow making sons ever produced anywhere.
