

Sale Name: Diamond D Angus

LOT 94A - DDA Oak Lane 94A

Class Bulls

Reg # 20916536

Birthdate 05/17/0202

Sire Oak Lane Prism 410

BW 87

WW ratio 98

CE 2

Scrotal 37

Final weight 967

Hip Height 50

Dams Udder 1

Dams Temp 1

Description

The Oak Lane Prism 410 sired many calves in a multi sire breeding group. This tells me many things about him. I know the bull is sound, fertile, and can cover many cows. After all this is what a breeder will buy a bull for. Due to the fact that we have all cattle DNA tested for parentage we know what bull is siring calves and what one is not. Bulls that sire the most calves are also siring your next daughters in production. By doing this we are make the best cows posable also. I also see HAR Pinebank 443 202 as sire to mother. I don't remember exact figures but he was put with 2 year old heifers and he sired 80 out of 83 posable.

Quantity: 1
