Description

As I have mentioned before that the 177U and 142V are maternal sisters The mother DDA Hana 940 stayed in production until she was 19 years old. The two sons we are using were her last calves born. Unbelievable longevity!!! I am not aware of any pedigree that has had not had any embryo or semen that the cow in a 3 generation pedigree was born in 1983. There is incredible longevity on dam side of this pedigree also. I see maternal grandsire is our DDA Lodge E5H and his mother DDA Melisa 824. I see mother DDA Zelda 347 had 9 calves, I see the great grandmother DDA Zelda 409 has had 14 calves. Back even farther is our 580/368 cow families. This is a pedigree that I could go on and on. Loading that pedigree with good cattle leaves no other option for the
