Description

The DDA Trouble Free 60A is another good DDA Great Plains 77U son. I am not able to say enough good about the 77U. He is sire to some of our very favorite young cows. I see on the mother's side of this pedigree you will find DDA Maddie 062 a double bred Pinebank. In studying these pedigrees, I see Pinebank SE 10D many times. That is a good early indication that they have the ability to stay around and do their job with very few inputs. The 9D and 10D are both bulls that originated in New Zealand that I bought from Bill Hodge. Check out the ultrasound data on this good bull.
