**Description**

This is as good as a pedigree can read. A Oak Lane Prism 410 out of a Hyland BC 0668 daughter. His mother had her 9th calf here and her mother DDA Sandy 718 had 8 calves and one more generation back the DDA Sandy 588 had 10 calves. I also see DDA Emblazon 27C and our Sandy 607 and Diamond Jumbo 587 in pedigree.
