**WW ratio** 100

**CE** 3

**Scrotal** 36

**Final weight** 997

**Hip Height** 49

**Dams Udder** 1

**Dams Temp** 1

**Description**

We have two herd bulls at the moment. One is 58Y and the other is 58W. I say this because it sometimes confuses me and I suspect it may sometimes confuse my customers. Both of the 58 bulls have developed into great maternal sires. Mother to DDA Bill 33A is still in production and has had 4 calves, Grandmother 421 had 6 calves and great grandmother Sandy 117 had 15 calves. I could go on and on. The mother to our 117 Sandy was our great Sandy 404 and her mother the 587 all having many calves.

**Quantity:** 1
