BW 84

WW ratio 94

Scrotal 37

Final weight 1,055

Hip Height 49

Cow Calf Ratio 49

Dams Udder 2

Dams Temp 1

CE 3

Description

Very durable and functional are the first things that come to mind in looking at this great pedigree. It is no secret how excited I am to start calving daughters to the 91N. Also on the bottom of this pedigree is OCC Great Plains and Hyland BC 0668. No question in my mind how good the daughters of the DDA Athabasca 107X will be. On the very bottom of this pedigree you will find DDA Emblazon 27C he traces to the same cow as OCC Great Plains Dixie Erica of CH 1019. You will also find our 508/368 cow family on the bottom of this great pedigree.

Note: Weaning ratio listed in catalog is incorrect.

Quantity: 1
