**Final weight** 1,184

**Hip Height** 50

**Cow Calf Ratio** 46

**Dams Udder** 2

**Dams Temp** 1

**CE** 3

### **Description**

Grandmothers on both sides of this pedigree are model cows. The DDA Holly 102 is ten years old and a paternal sister to our DDA B&T 18K. Like most pedigrees here at Diamond D Angus, I find a ton of function and longevity. Our DDA Fahren 5Z traces to our 580/368 cow family. The Miss Diamond Jumbo 587 is a paternal sister to the 580 cow on bottom. The Sandy 404 is the mother to Sandy 308, and a daughter of the 587. She stayed in production for 22 years. We also have Banjo, and Fahren. No question this good bull will sire outstanding daughters.

Note: Weaning ratio listed in catalog is incorrect.

**Quantity:** 1
