### **Description**

If you like our DDA Melisa 824. Take a look here, she is in the pedigree of DDA At&t 41X four times in 4 generations. No question on what his daughters will look like. Having a pedigree like this may hurt the performance of 41X as an individual, however his sons and daughters will way out perform what he did. That is, if he is used on cattle that do not have the DDA Melisa 824 already in the pedigree.

Note: Weaning ratio listed in catalog is incorrect.

**Quantity:** 1
