Cow Calf Ratio 65%

Dams Udder 1

Dams Temp 1

Description

We have used two herd sires out of DDA Galatea 859, DDA Great Plains 57R is one and DDA Gone Fishing 101W is the other. Just an example of the goodness in the 859 cow. One of these sires are on top side of pedigree and the other is on the bottom side. The OCC Dixie Erica of 1019 is also double up. In order for a bull to sire good females, a person needs to stack good cows in pedigree. The more good cows that show up, the more chance the bull will sire good females.

Quantity: 1
